INFORMATION DISCLOSURE STATEMENT

Hon. Commissioner of  
Patents and Trademarks  
Washington, DC 20231

Sir:

In order to comply with 37 C.F.R. §1.97 and §1.98, attached hereto  
is a copy of Form PTO-1449 and copies of the documents listed thereon.

In accordance with MPEP Sections 609 and 707.05(b), it is requested  
that each document cited (including any cited in applicant's specification which is  
not repeated on the attached Form PTO-1449) be given thorough consideration and  
that it be cited of record in the prosecution history of the present application by

initialing Form PTO-1449 next to the document. Such initialing is requested even if the Examiner does not consider a cited document to be sufficiently pertinent to use in a rejection, or otherwise does not consider it to be prior art for any reason, or even if the Examiner does not believe that the guidelines for citation have been fully complied with. This is requested so that each document becomes listed on the face of the patent issuing on the present application.

The undersigned is also enclosing herewith an English translation of each of the foreign language documents identified in Form PTO-1449. It is believed that the applicant in the above-identified patent application has therefore met the "concise explanation" requirement of 35 C.F.R. §1.98.

This submission is filed within three months of the filing of the application.

The current application is related to U.S. Patent 4,944,986 to Zuel. (Ref. No. 102). Accordingly, this Information Disclosure Statement identifies the same references as the '986 Patent. However, in reviewing the present submission, it was determined that the first reference of the '986 application, U.S. Patent No. 254,623, was not issued to Bitterlin, but to Davis, and neither its filing or issue dates match that on the Davis Patent. Since Davis is directed to a Vapor Burner, it is clearly inapplicable and irrelevant to the present application and thus not included in the present submission.

The present Information Disclosure Statement is being submitted in

compliance with 37 C.F.R. §1.56, but the citation of such document is not to be construed as an admission that such document is necessarily relevant or prior art. No representation is intended that the cited documents represent the results of a complete search, and it is anticipated that the Examiner, in the normal course of examination, will make an independent search and will determine the best prior art consistent with 37 C.F.R. §1.104(a) and §1.106(b) and, in the course of each search, will review for relevance every document cited on the attached form even if not initialed.

It is believed that no fee is due. However, if the Commissioner determines that a fee is due, the Commissioner is hereby authorized to charge the above deposit account for any deficiency.

Early and favorable consideration is earnestly solicited.

Respectfully submitted,

Dated: June 3, 2002
